"Depend on Hunter for Gladiolus"

Florists' Favorite Century of Progress Collection

All gladiolus are beautiful but those florists and growers who make money must plant profitable money making varieties. When you force a gladiolus bulb you want the maximum percentage of salable bloom, you want colors you can use and flowers that will stand some handling. You must have varieties that will pay out over and above

production costs when the flowers are sold. With these points in mind I have personally selected this list from our 82 varieties planted at the Century of Progress to give the florists of America a representative collection of gladiolus for forcing in the greenhouse or planting out-of-doors.

GOLD EAGLE (Austin) Very early. Deep rich yellow, slightly ruffled, with straight, slender, wiry spikes. Very vigorous and gaining in popularity. **Fine for forcing and planting in succession.** First size bulbs \$14.00 per 1000, second size \$9.00, third size \$7.00.

LOS ANGELES (Houdyshell) Second early. Delicate shrimp pink with brighter throat marking. **Splendid for cutting** and in California it is called the "cut and come again" Gladiolus. Very vigorous and worth while. **A leader everywhere,** for forcing and all florists' uses. First size bulbs \$14.00 per 1000, second size \$9.00, third size \$7.00.

MAD. VON KONIJNENBURG (Pfitzer) Early Mid-season. Light violet-blue — **the very nearest blue to date.** Tall, has stem weakness so requires staking. Especially recommended to those desiring a **novelty blue Gladiolus.** The most vigorous and rapid grower in this color class. **Splendid forcer.** First size bulbs \$22.00 per 1000, second size \$16.00, third size \$12.00.

MAGIC (Kunderd). Early tall light violet with large rich purple throat blotches. Flowers only small to medium in size but a **useful color for florists' work.** **Early forcer** and one of the most dependable. First size bulbs \$22.00 per 1000, second size \$16.00, third size \$12.

MARY FREY (Gelser) Early Mid-season. **Warm lilac pink** with throat marking which reminds one of Mrs. F. C. Peters but of a lighter color, and much earlier in season. **A very charming cut flower and forces easily.** First size bulbs \$22.00 per 1000, second size \$16.00, third size \$12.00.

MING TOY (Kunderd) Early. Tall, buff yellow. **A color that blends well in florists' work and modern indoor decoration.** One of the older favorites and very dependable for forcing and cutting. First size bulbs \$12.00 per 1000, second size \$8, third \$6.

MRS. F. C. PETERS

MRS. F. C. PETERS (Fischer) Late. Beautiful lilac-pink with purplish blotch in throat. **Resembles an orchid in color. Form ideal** and very popular everywhere. **Late forcer.** First size bulbs \$16.00 per 1000, second size \$10.00, third size \$8.00.

NANCY HANKS (Salbach) Early mid-season Apricot, tinted orange-pink, with red markings in throat. Medium height **flowers large,** with several open. In demand everywhere. **Dependable forcer.** First size bulbs \$14.00 per 1000, second size \$9.00, third size \$7.00.

Altogether a more pleasing and worthwhile variety would be hard to find. **Ideal for cutting,** sure for forcing, a standard commercial in every way. First size bulbs \$12.00 per 1000, second size \$8.00, third size \$6.00.

RUTH HUNTINGTON (Kunderd) Late mid-season. Violet lilac pink, with deeper velvety red blotch on lower petals. **Worthy of a place in every planting** no matter how small. **Nicely ruffled and artistically arranged on the spike.** **Late forcer.** First size bulbs \$18 per 1000, second size \$12.00, third size \$9.00.

VIRGINIA (Scarlet Princeps) (Kunderd) Mid-season. **This variety is still the vogue.** Scarlet red with slightly deeper throat. **A wonderful bedding or landscape variety and a superb forcer.** Several large round blooms are open at one time. SALMON PLUME (Kunderd) Second early. Clear salmon flesh, deeper at edges of petals with a pretty bright throat. The size of the flower is about the same as E. J. Shaylor. Will last ten days or two weeks as a cut flower under average conditions. Stands hot sun better than most varieties of this color, a sure forcer and we hope you will give it a trial.
